Shoes Wave 2 - version 2

Start of Block: Section 1: Introduction

JS

Q1.1 We are a team of researchers at MIT and Dartmouth College studying online shopping. We are writing to invite your participation in a survey on preferences when buying a new pair of athletic shoes.

The information collected will be completely anonymous. No identifying information will be collected or retained from your survey responses. Your participation in this study is voluntary, and you are free to not answer all questions or to withdraw from the study at any time. However, any online interaction carries some risk of being accessed.

It should not take more than 5 minutes to complete this study.
Questions about this project may be directed to: yusaku.horiuchi@dartmouth.edu, teppei@mit.edu, or zmarko@mit.edu.

Q1.2 Please select one of the following options. If you choose not to participate, the survey will end immediately.

- ○ I agree to participate (1)
- ○ I do not agree to participate (2)

End of Block: Section 1: Introduction

Start of Block: MTurk

Q2.1 Please enter your MTurk ID.

This information will not be used to identify you. We are asking for your ID in case you encounter technical issues during the survey. The ID you enter here may be used to verify your participation before making a payment. Thus, please double-check your ID carefully.

_____

End of Block: MTurk

Start of Block: Treat Random

Q3.1 In the next few minutes, we will show you profiles for many different kinds of athletic shoes. These profiles are purely hypothetical and do not represent actual products.

On the next **twenty** screens, you will see the same type of tables featuring hypothetical shoes with different attributes. Please examine each table carefully before answering the questions that follow.

Q6.1 In the next few minutes, we will show you profiles for many different kinds of athletic shoes. These profiles are purely hypothetical and do not represent actual products.

On the next **twenty** screens, you will see the same type of tables featuring hypothetical shoes with different attributes. Please examine each table carefully before answering the questions that follow.
